## Breaking knife (Art.-Nr. 2015 30)

### Herstellerangaben

Firma: Johannes Giesser Messerfabrik GmbH  
Straße: Johannes-Giesser-Straße 1  
PLZ/Ort: 71364 Winnenden  
Telefon: 07195/1808-0  
E-Mail: info@giesser.de

### Technische Angaben

EAN: 4010303011005  
Ursprungsland: Deutschland  
Bundesland: Baden-Württemberg  
Zolltarifnummer: 82119200 08  
Länge: 440 mm  
Klingenlänge: 300 mm  
Gewicht: 0.231 kg

### Technische Zeichnung

- ➔ Blade made of high quality chrome molybdenum steel
- ➔ Polished
- ➔ Curved shape
- ➔ Ergonomic and non-slip plastic handle

### Blade

#### Hochglanzpoliert

Blade made from high grade chrome molybdenum steel, hardened in vacuum process to 56 - 57 Rockwell hardness grade. Highly polished surface for highest possible rust resistance and durability of the cutting edge. Honing by hand for perfect sharpness.

#### Gebogene Form

Curved and narrow blade for work that is ergonomic and gentle on the wrist. The blade shape, above all, facilitates the drawing cut.

### Handle

#### Standardgriff

Standard plastic handle made from especially non-slip and pleasantly easy-to-grip material (TPE). The well shaped protective guard provides a secure hold and reduces the risk of the hand slipping when holding the knife.

#### Messer mit Kunststoffgriff

The plastic handle is suitable for contact with food and complies with the requirements of the following legal regulations (each including all amendments and in the current version at the time of making this declaration):

Regulation (EC) No. 1935/2004 on materials and objects (including active and intelligent food contact materials and objects), intended for coming into contact with food and repealing Directives 80/590/EWG and 89/109/EWG – in their currently valid version.

Regulation (EU) No. 10/2011 dated 14.01.2011 on materials and objects made from plastic intended for coming into contact with food.

#### Alle Griffe ausser Holz

The knives are dishwasher proof. However, we recommend manual cleaning to protect the cutting edge.
